I am a mathematician/physicist interested in dynamical systems theory, applied mathematics, machine learning, geometry and economy. In my current work I employ geometric tools to analyze the behavior of firms competing in the market.

EMPLOYEMENT

Harvard University <i>Research Assistant, Business School</i> • Supervisor: Prof. J. Tamayo .	Nov 2021 — Present <i>Boston, USA</i>
Universidad de los Andes <i>Assistant Professor, Facultad de Ciencias</i> • Courses: Integral Calculus, Differential Equations & Basic Mathematics.	2020 — 2022 <i>Bogotá, Colombia</i>

EDUCATION

Universidad de los Andes <i>M. Sc. in Mathematics</i> Thesis title: Elements of sub-Riemannian geometry and its applications	Bogotá, Colombia 2022
Fundación Universitaria Konrad Lorenz <i>B. S. in Mathematics</i>	Bogotá, Colombia 2020
Universidad Nacional de Colombia <i>B. S. in Physics</i>	Bogotá, Colombia 2020

SKILLS

Programming Languages	Python, C/C++, Bash & Java
Technical Computing	Mathematica & Matlab
Communication	Spanish & English (IELTS Academic: 7.0)
Other	Git, \LaTeX & HTML

HONORS, SCHOLARSHIPS AND AWARDS

Graduate Fellowship , (Beca de Asistencia Graduada) Universidad de los Andes.	2020 — 2022
Award for best undergraduate students , ECAES Standarized Test Ministerio de Educación Nacional (Colombia). Top 1% of undergraduate students of Colombia.	2018, 2020
Distinguished Young Investigator Science Award , Fundación Universitaria Konrad Lorenz.	2018
Outstanding Student Scholarship , Universidad Nacional de Colombia. Top 1% of my class.	2015

PUBLICATION LIST

1. <i>About the restricted three-body problem with the Schwarzschild de Sitter potential</i> John A. Arredondo, Julian Jimenez-Cardenas <i>Nonlinear Dynamics and Systems Theory, Volume 21, Number 2.</i>	2021
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------

ACADEMIC EVENTS

10. <i>14th International Olympiad on Astronomy and Astrophysics</i> Universidad Antonio Nariño, Bogotá, Colombia. Role: Jury.	2021
9. <i>XX School on Mathematics</i> Universidad Nacional Autónoma de México, Morelia, México. Courses taken: metric spaces and groups, hyperbolic geometry, metric spaces of negative curvature.	2021
8. <i>Mathematics by Students</i> Universidad de los Andes, Bogotá, Colombia. Talk presented: Restricted Three Body Problem under the Schwarzschild de Sitter Potential.	2018
7. <i>III Winter School on Mathematics</i> Universidad Nacional Autónoma de México, Oaxaca, México.	2017
6. <i>III International Conference on Applied Mathematics and Informatics</i> Universidad del Valle, Isla de San Andrés, Colombia. Talk presented: Simulations on N-bodies with Relativistic Corrections.	2017

|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| 5. <i>XVII Summer School on Mathematics</i>
Universidad Nacional Autónoma de México, Morelia, Mexico. | 2017 |
| 4. <i>XIX National and XIII International Meeting of Investigation Groups</i>
Universidad Simón Bolívar, Cúcuta, Colombia.
Talk presented: Simulations of the N-Body Problem. | 2016 |
| 3. <i>Mathematics by Students</i>
Universidad de los Andes, Bogotá, Colombia.
Poster presented: Kepler's Problem and Two Body Problem. | 2015 |
| 2. <i>II Workshop on Astronomy.</i>
Universidad de los Andes, Bogotá, Colombia.
Poster presented: Astronomy available for everyone. | 2015 |
| 1. <i>8th International Olympiad on Astronomy and Astrophysics.</i>
Universitatea Stefan Cel Mare, Suceava, Romania. | 2014 |

SERVICE

-
- | | |
|--------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| • Editor of Paskín Matemático .
Fundación Universitaria Konrad Lorenz. | 2020 – Present |
| • Professor of the one week course "Python Programming Oriented to Scientific Computing".
Fundación Universitaria Konrad Lorenz. | 2018 |
| • Professor of the one week course "Introduction to Category Theory".
Fundación Universitaria Konrad Lorenz. | 2018 |

ONLINE COURSES

-
- | | |
|-----------------------------------------------------------------------------------------------------------------|------|
| • Introduction to Enumerative Combinatorics.
National Research University Higher School of Economics. | 2020 |
| • Game Theory.
Stanford University, University of British Columbia. | 2020 |
| • Bayesian Statistics: Techniques and Models.
University of California, Santa Cruz. | 2020 |
| • Econometrics: Methods and Applications.
Erasmus University Rotterdam. | 2020 |
| • Machine Learning.
Stanford University. | 2019 |
